

Private Event Mode – Feature Breakdown

1. Event Privacy & Access

- *Private visibility toggle*
 - Mark an event as "Private" so it does not appear in public search, feeds, or SEO.
- *Invite-only access*
 - Only invited guests can view details or RSVP.
- *Access via secure link*
 - Hosts share a special link via WhatsApp, SMS, email, etc.
- *Email / phone validation*
 - Guests must confirm their invited email or phone before seeing full details.
- *No-account guest access (low friction)*
 - Guests can RSVP without creating a full user account.

2. Guest List & Household Management

- *Bulk guest import*
 - Upload CSV/XLS with guest name, email, phone, family/household, notes.
- *Household / family grouping*
 - Group guests under families/parties instead of only individuals.
- *Primary guest + linked members*
 - One invite per household; primary guest submits responses for the family.
- *Plus-one / additional guests rules*
 - Configure whether a guest can bring partner/kids/extra people.
- *Guest tags & segments*
 - Mark guests as "close family", "friends", "VIP", "out of town", etc.

3. RSVP & Response Collection

- *Standard RSVP states*
 - Attending / Not attending / Maybe.
- *Family attendance counts*
 - Number of adults, number of kids, optional names of attendees.
- *Conditional fields*
 - Show extra questions only if "Attending" is selected or if kids > 0.
- *Editable RSVPs*
 - Guests can update their response until a host-set deadline.
- *RSVP deadline & reminders*
 - Set close date and auto-reminders to non-responders.

4. Food, Dietary & Logistics

- *Meal preferences*
 - Veg / Non-veg / Vegan / Jain / Kids meal / Custom options.
- *Dietary restrictions*

- Allergies, intolerances, religious restrictions (free-text + presets).
- *Per-person meal selection*
 - Choose a meal for each named attendee when needed.
- *Accommodation needs*
 - Yes/No + details for stay requirements.
- *Transport needs*
 - Pickup/drop required, route, time window.
- *Special notes to host*
 - Free-text field for accessibility, elders, children, etc.

5. Multi-Function / Multi-Day Events

- *Sub-events / functions*
 - Create multiple linked functions (e.g., ceremony, reception, lunch).
- *Function-level RSVP*
 - Guests choose which specific functions they will attend.
- *Per-function headcounts*
 - Separate counts for each function (adults, kids, total).

6. Messaging & Invitations

- *Multi-channel invite sending*
 - Generate content shareable via WhatsApp, SMS, email.
- *Personalized invite text*
 - Use guest name/family name and unique RSVP link.
- *Automated reminders*
 - Nudge pending guests before RSVP deadline.
- *Message templates*
 - Pre-written copy for weddings, birthdays, memorials, etc.

7. Organizer Planning Dashboard

- *Overview metrics*
 - Invited / Confirmed / Declined / Pending.
- *Family / household breakdown*
 - View responses by family with adult/kid counts.
- *Meal summary*
 - Totals per meal type and list of allergies/restrictions.
- *Function-wise attendance*
 - Headcount per sub-event (ceremony, reception, etc.).
- *Logistics summary*
 - Accommodation + transport + special needs totals.
- *Export & share*
 - Export CSV/XLS for caterers, planners, and venue.

8. Day-Of Operations (Nice-to-Have)

- *Guest check-in*

- Mark guests/families as arrived (optionally via QR or search).
- *Household check-in mode*
 - Check in all members of a family at once.
- *Staff / helper role*
 - Limited access accounts for volunteers or coordinators.

9. Configuration & Settings

- *Privacy defaults*
 - Choose default visibility for new private events.
- *Question templates*
 - Save frequently used RSVP question sets per event type.
- *Language & locale*
 - Support for multiple languages (e.g., English + Indian languages) for forms and invites.
- *Branding options*
 - Event cover image, colors, host names, and venue details.

10. MVP Recommendation

For a first version, prioritize:

1. Private visibility + invite-only access.
2. Email/phone validation and low-friction guest access.
3. Household/family RSVP with adult/kid counts.
4. Meal and dietary preference collection.
5. WhatsApp/SMS/email sharing of invite link.
6. Organizer dashboard with headcount + meal summary + export.
